Products Detail

Rebar tying machine

Rebar tying machine produced our factory is hand-help intellectual battery dynamo electric device.it possesses the trait if secure and credible,reasonable,advanced craft, easily manipulate,high work efficiency. It can use in the architecture engineering to pack precast rebars. It can highly raise the speed of engineering.

Technical parameter:

Model No.	SM-220	SM-400
Tying Diameter	9-20mm	9-40mm
Time of Making a Knot	0.8 seconds	0.8 seconds
Voltage	DC9.6V	DC9.6V
Weight	2.15kgs	2.2kgs
Turns per Tie	2 turns/3turns	2turns/3turns
Ties per Coil	Approx. 260ties(2turns)	Approx. 160ties(2turns)
Ties per Charge	4-5 Coils	6-7 Coils
Length of Wire for Tying	380mm/2 turns	600mm/2 turns
	510mm/3 turns	780mm/3 turns
Dimension(L)X(W)X(H)	398mmX150mmX410mm	398mmX150mmX410mm
